*Most flights have flexibility in travel dates, times, and departure and arrival airports. (Filling space available seats can also be an option for a child and parent on dedicated flights.) Also, please let us know if you could fill part of a leg; we may be able to fund a charter for the remainder of the trip. (This document may be shared with other potential flight donors.) Please contact our Flight Coordinator, Mary Lynn Fisk at FlightCoordinator@aeroangel.org (828) 974-2889 or Mark Pestal, Mark@aeroangel.org (303) 548-3426 for details or to offer a flight.

For Part 135 Operators: We have established a partnership with [JumpHub](#) provides empty-leg charter flights available to participating operators (it is essentially a "virtual" collaborative airline). AeroAngel has an opportunity to use available empty legs for its flights. To learn how your company may participate, please contact Ed@jumphub.aero and let him know you heard about JumpHub from AeroAngel.
